

### ORANGE COUNTY FIRE AUTHORITY AGENDA

#### **Human Resources Committee Special Meeting**

Tuesday, November 10, 2020 12:00 Noon

**Regional Fire Operations and Training Center Board Room** 1 Fire Authority Road Irvine, California 92602

Vince Rossini, Chair Michele Steggell, Vice Chair Ed Sachs • Noel Hatch • Rob Johnson Dave Shawver • Gene Hernandez

This Agenda contains a brief general description of each item to be considered. Except as otherwise provided by law, no action or discussion shall be taken on any item not appearing on the following Agenda. Unless legally privileged, all supporting documents, including staff reports, and any writings or documents provided to a majority of the Human Resources Committee after the posting of this agenda are available for review at the Orange County Fire Authority Regional Fire Operations & Training Center, 1 Fire Authority Road, Irvine, CA 92602 or you may contact the Clerk of the Authority at (714) 573-6040 Monday through Thursday, and every other Friday from 8 a.m. to 5 p.m. and available online at <a href="http://www.ocfa.org">http://www.ocfa.org</a>

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, you should contact the Clerk of the Authority at (714) 573-6040 and identify the need and the requested modification or accommodation. Please notify us as soon as is feasible, however 48 hours prior to the meeting is appreciated to enable the Authority to make reasonable arrangements to assure accessibility to the meeting.

#### NOTICE REGARDING PUBLIC PARTICIPATION DURING COVID-19 EMERGENCY

During the Statewide COVID-19 Emergency, the public is not permitted to convene in person for this public meeting. However, the public may still view and comment on the meeting as follows:

• To watch the meeting online, please go to website at <u>www.OCFA.org</u>

• To submit an e-comment, please email to <u>PublicComments@ocfa.org</u>.

You may comment on items on the agenda or not on the agenda. Your comments will be forwarded electronically and immediately to the members of the Committee. Comments related to a particular agenda item will only be considered prior to the close of public comments on that item.

CALL TO ORDER

PLEDGE OF ALLEGIANCE by Director Hatch

**ROLL CALL** 

#### 1. PRESENTATIONS

• Behavioral Health

#### **PUBLIC COMMENTS**

Please refer to instructions on how to submit a public comment during COVID-19 Emergency on Page 1 of this Agenda.

#### 2. CONSENT CALENDAR

All matters on the consent calendar are considered routine and are to be approved with one motion unless a Director or a member of the public requests separate action on a specific item.

#### A. Minutes for the Special Human Resources Committee Meeting on September 1, 2020 Submitted by: Maria Huizar, Clerk of the Authority

Recommended Action: Approve as submitted.

#### **B.** Annual Workers' Compensation Program Update

Submitted by: Stephanie Holloman, Assistant Chief/Human Resources Department and Rhonda Haynes, Risk Manager

<u>Recommended Action:</u> Receive and file the report.

#### C. New Classification Specification for Diversity and Inclusion Coordinator <u>Submitted by:</u> Stephanie Holloman, Assistant Chief/Human Resources Department and <u>Tamaryn Boston, Human Resources Manager</u>

Recommended Action:

Review the proposed agenda item and direct staff to place the item on the agenda for the Executive Committee meeting of November 19, 2020, with the Human Resources Committee's recommendation that the Executive Committee approve the establishment of the new classification and salary range of Diversity and Inclusion Coordinator.

#### **D.** New Classification Specification for Environmental, Health and Safety Analyst Submitted by: Stephanie Holloman, Assistant Chief/Human Resources Department and Tamaryn Boston, Human Resources Manager

#### Recommended Action:

Review the proposed agenda item and direct staff to place the item on the agenda for the Executive Committee meeting of November 19, 2020, with the Human Resources Committee's recommendation that the Executive Committee approve the establishment of the new classification and salary range of Environmental, Health and Safety Analyst.

#### E. Mission Driven Culture (MDC) Organizational Development Project Update Submitted by: Brian Fennessy, Fire Chief

<u>Recommended Action:</u> Receive and file the update.

**3. DISCUSSION CALENDAR** No items.

#### COMMENTS

- HUMAN RESOURCES DIRECTOR'S COMMENTS
- COMMITTEE MEMBER COMMENTS

#### **RECESS TO CLOSED SESSION**

The Brown Act permits legislative bodies to discuss certain matters without members of the public present. The Board of Directors find, based on advice from the General Counsel, that discussion in open session of the following matters will prejudice the position of the Agency in existing and anticipated litigation:

### **CS1. CONFERENCE WITH LEGAL COUNSEL-ANTICIPATED LITIGATION** Authority: Government Code Section 54956.9(b) – Significant Exposure to Litigation (2 Cases)

**CLOSED SESSION REPORT -** The General Counsel will report on any action(s) taken.

**ADJOURNMENT** – The next regular meeting of the Human Resources Committee is scheduled for Tuesday, February 2, 2021, at 12:00 noon.

#### **AFFIDAVIT OF POSTING**

I hereby certify under penalty of perjury and as required by the State of California, Government Code § 54954.2(a), that the foregoing Agenda was posted in the lobby and front gate public display case of the Orange County Fire Authority, Regional Training and Operations Center, 1 Fire Authority Road, Irvine, CA, not less than 72 hours prior to the meeting. Dated this 27<sup>th</sup> day of August 2020.

Maria D. Huizar, CMC Clerk of the Authority

#### **UPCOMING MEETINGS:**

Executive Committee Meeting Board of Directors Meeting Budget and Finance Committee Thursday, November 19, 2020, 5:30 p.m. Thursday, November 19, 2020, 6:00 p.m. Wednesday, January 13, 2021 at 12 noon

#### CALL TO ORDER

A special meeting of the Human Resources Committee was called to order on September 1, 2020, at 12:01 p.m. by Chair Rossini.

#### PLEDGE OF ALLEGIANCE

Director Hatch led the assembly in the Pledge of Allegiance to our Flag.

#### **ROLL CALL**

Present: Vince Rossini, Villa Park, Chair Michele Steggell, La Palma, Vice Chair\* Gene Hernandez, Yorba Linda\* Noel Hatch, Laguna Woods\* Rob Johnson, Cypress\* Ed Sachs, Mission Viejo\* Dave Shawver, Stanton\*

#### Absent: None

#### Also present were:

| Fire Chief Brian Fennessy                      | Deputy Chief Lori Zeller                   |
|--|--|
| Assistant Chief Randy Black                    | Assistant Chief Robert Cortez              |
| Assistant Chief Jim Ruane                      | Assistant Chief Lori Smith                 |
| Director of Human Resources Stephanie Holloman | Director of Communications Colleen Windsor |
| Clerk of the Authority Maria Huizar            | Legal Counsel Keith Dobyns                 |

Human Resources Committee Members participating via Teleconferencing\*

#### 1. PRESENTATIONS

No items.

#### **PUBLIC COMMENTS**

Chair Rossini opened the Public Comments portion of the meeting. Chair Rossini closed the Public Comments portion from the meeting without any comments from the general public.

#### 2. CONSENT CALENDAR

On motion of Director Johnson and second by Director Hernandez, and following a roll call vote, declared passed 6-1, with Director Sachs abstained.

#### A. Minutes for the February 4, 2020, Human Resources Committee Meeting (FILE 12.02D2)

Action: Approve as submitted.

#### 3. DISCUSSION CALENDAR

#### A. Fleet Services Classification and Compensation Study Update (FILE 17.18A)

Deputy Chief Zeller introduced Human Resources Manager Tamaryn Boston to present the Fleet Services Classification and Compensation Study Update.

On motion of Director Johnson and second by Director Hernandez, and following a roll call vote, declared passed 7-0, to receive and file the report.

### **B.** Orange County Fire Authority Management Association (OCFAMA) Classification and Compensation Study Update (FILE 17.18A)

Deputy Chief Zeller introduced Human Resources Manager Tamaryn Boston to present the Orange County Fire Authority Management Association (OCFAMA) Classification and Compensation Study Update.

On motion of Director Hatch and second by Director Johnson, and following a roll call vote, declared passed 7-0, to receive and file the report.

#### C. Amended and New Classification Specifications (FILE 17.18)

Human Resources Manager Tamaryn Boston presented the Amended and New Classification Specifications.

On motion of Director Johnson and second by Director Hernandez, and following a roll call vote, declared passed 6-1, (with Director Sachs opposed) to review the proposed agenda item and direct staff to place the item on the agenda for the Executive Committee meeting of September 24, 2020, with the Human Resources Committee's recommendation that the Executive Committee adopt the following amended and new classification specifications:

- 1. Amend the Wildland Resource Planner classification with a change to the salary allocation from SM80 (high of \$50.52/hour) to SM100 (high of \$62.82/hour).
- 2. Adopt the new Payroll Supervisor classification and assign the salary allocation to SM 88 (high of \$54.75).
- 3. Adopt the new Training Program Analyst classification and assign the salary allocation to GE380 (high of \$49.30).

#### COMMENTS

• HUMAN RESOURCES DIRECTOR'S COMMENTS (FILE 12.02D6)

Deputy Chief Zeller introduced newly appointed Human Resources Director Stephanie Holloman and Human Resources Manager Christy Dycus.

#### • **COMMITTEE MEMBER COMMENTS** (FILE 12.02D4)

Chair Rossini welcomed both Director Holloman and Manager Dycus to OCFA.

Director Hernandez welcomed newly appointed Director Holloman and Manager Dycus.

Director Hatch welcomed the newly appointed Director and Manager noting the Committee would be looking forward to working with them.

#### **RECESS TO CLOSED SESSION**

Chair Rossini recessed the Open Session meeting to Closed Session at 12:40 p.m.

CS1. CONFERENCE WITH LEGAL COUNSEL-ANTICIPATED LITIGATION (FILE 12.02D5) Authority: Government Code Section 54956.9(b) – Significant Exposure to Litigation (16 Cases)

#### **RECONVENE TO OPEN SESSION**

Chair Rossini reconvened to open session meeting at 12:55 p.m. with all Directors present.

#### CLOSED SESSION REPORT (FILE 12.02D5)

Legal Counsel Dobyns stated there were no reportable actions.

**ADJOURNMENT** – Chair Rossini adjourned the meeting at 12:56 p.m. The next regular meeting of the Human Resources Committee is scheduled for Tuesday, November 3, 2020, at 12:00 noon.

Maria D. Huizar, CMC Clerk of the Authority

#### Orange County Fire Authority AGENDA STAFF REPORT

Human Resource Committee Meeting November 10, 2020 Agenda Item No. 2B Consent Calendar

**Annual Workers' Compensation Program Update**

#### **Summary**

This annual agenda item provides an update on the workers' compensation self-insured program and the performance of CorVel Corporation, the third-party administrator, since June 1, 2014.

**Prior Board/Committee Action** 

Not Applicable.

| <b>RECOMMENDED</b> ACTION(S) |
|------------------------------|
| Receive and file the report. |
|                              |

**Impact to Cities/County** Not Applicable.

**Fiscal Impact** Not Applicable.

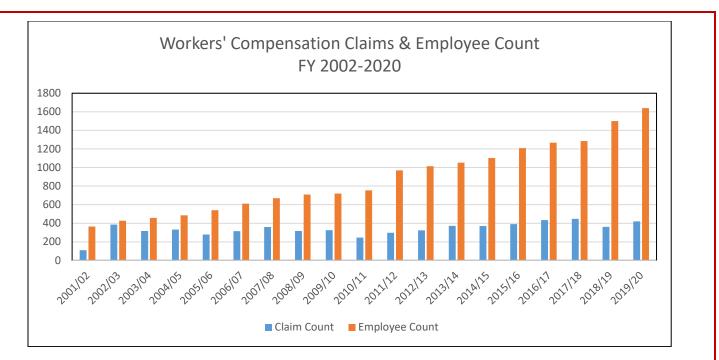

#### Background

The Orange County Fire Authority (OCFA) was approved by the Division of Industrial Relations Self-Insurance Plans in 2002 to have a self-insured workers' compensation program administered through a Third-Party Administrator (TPA). The TPA for the OCFA self-insured workers' compensation program has been CorVel Corporation, since June 1, 2014.

#### Budgeting for Self-Insurance Fund

An independent actuary is used twice a year to project future workers' compensation costs and update the amount of funding required to self-insure the OCFA workers' compensation program. The projection of costs and necessary funding is determined by analyzing claims data dating back to the self-insured program's beginning. Claims data includes case reserves set by the TPA, historical loss experience, and industry trends. The OCFA currently has 1004 open claims dating back to the inception of the self-insured workers' compensation program.

| Open Claims  | 2017 | 2018 | 2019 | 2020 | Percent Change |
|--------------|------|------|------|------|----------------|
| Death        | 6    | 6    | 6    | 1    | -83.3%         |
| Indemnity    | 641  | 535  | 537  | 594  | 10.6%          |
| Maintenance  | 169  | 342  | 397  | 380  | -4.3%          |
| Medical Only | 50   | 59   | 35   | 29   | -17.1%         |
| Grand Total  | 866  | 942  | 975  | 1004 | 3.0%           |

Over the past year, the OCFA averaged approximately 34.9 claims a month or 419 claims during the year (not including first aid injuries). The OCFA experienced a 16.1% increase in actual claims reported during FY 19/20 compared to the prior FY 18/19. However, OCFA also experienced a 9.3% increase in employee count during FY 19/20 compared to FY 18/19, with the addition of frontline operational positions, support positions, and the transition of Garden Grove.

| Claims Reported | 2016 | 2017 | 2018 | 2019 | 2020 | Percent Change |
|-----------------|------|------|------|------|------|----------------|
| Total           | 361  | 414  | 447  | 361  | 419  | 16.1%          |

It's important to note that the total 419 claims listed above represents all claims that were filed for FY 19/20. Of the 419 total claims filed, 287 were indemnity claims, and 261 of those 287 claims resulted in days away from work. The remaining 26 of these indemnity claims were denied where the OCFA expects to have no liability. An additional 131 of the 419 total claims filed were medical-only claims with a short case-life expectancy of 30-to-90-days. Finally, 1 of the 419 claims was a death claim. To date, 205 of the 419 claims resulted in claims cost less than \$5,000 per claim.

See the attached extended background that provides additional, comprehensive details and explanation of the programmatic enhancements and savings.

#### Attachment(s)

- 1. Background
- 2. Actuarial Analysis with data valued as of December 2019

#### **Background**

#### Analysis of Actuary Projections Based on Claims Data as of December 31, 2019

The OCFA policy is to fund the Workers' Compensation Program at the 50% confidence level for estimated outstanding losses, including case reserves, the development of known claims and incurred but not reported claims (IBNR), allocated and unallocated expenses. The actuarial projection for long-term liabilities at the 50% confidence level as of June 30, 2020, is \$103,945,795.

The actuary has projected the liabilities incurred in FY 19/20 to be \$21,724,158, representing the projected settlement value of all claims with dates of loss during each period, capped at the OCFA's self-insured retention level of 2.0M. This report is a guide to establishing appropriate loss reserves estimates on the self-insurance program.

The actuary attributed the increase in projected ultimate losses to an increase in payroll, open claims count, and claim severity.

#### Workers' Compensation Program Overview

Risk Management conducted a significant overhaul of the self-insured Workers' Compensation Program in 2014. We continue to evaluate and monitor the program for services that will provide benefits that will "cure and relieve the effects of the injury" while improving program results. The current program features include an Alternative Dispute Resolution Program, occupational clinics, medical provider network, utilization review, nurse advocacy, Pharmacy Benefits Management Program, and a *new* Claims Liaison feature added in January 2020.

The OCFA currently has 1004 open workers' compensation claims administered by the third-party administrator (TPA), ranging from indemnity (loss time), medical only, and future medical cases. There has been a 3.0% increase in total open claims, from 975 to 1004 during this reporting period, impacting our long-term liabilities.

| Open Claims  | 2017 | 2018 | 2019 | 2020 | Percent Change |
|--------------|------|------|------|------|----------------|
| Death        | 6    | 6    | 6    | 1    | -83.3%         |
| Indemnity    | 641  | 535  | 537  | 594  | 10.6%          |
| Maintenance  | 169  | 342  | 397  | 380  | -4.3%          |
| Medical Only | 50   | 59   | 35   | 29   | -17.1%         |
| Grand Total  | 866  | 942  | 975  | 1004 | 3.0%           |

 Table 1: Summary of Open Claims

#### Medical Provider Network (MPN)

The OCFA implemented an MPN on July 1, 2014, which has provided employees with access to physicians specializing in workers' compensation care and a 24/7 nurse advocacy program. OCFA employees have experienced reduced medical treatment delays and faster return to work due to the doctors' familiarity with the regulatory requirements. The OCFA experienced several claims that had a significant fiscal impact on our program in FY 2019/20, including major hospitalizations, heart transplant surgeries, cancer, and deaths. The OCFA was able to reap substantial savings off the cost of medical services by utilizing facilities within the MPN, which resulted in a reduction in the OCFA's financial liability.

#### **Occupational Clinics**

The OCFA started utilizing occupational clinics on July 1, 2014, which allowed employees to have 24/7 access to a physician within proximity to all seventy-seven fire stations and the Regional Fire Operations and Training Center. Risk Management continues to monitor the occupational clinics by using employee satisfaction surveys and site visits to ensure they meet established OCFA protocols, expectations, and performance standards. The table below summarizes MPN and occupational clinic usage and savings for the fiscal year.

| Occupational Clinic Usage                    | 2018        | 2019        | 2020        |
|--|-------------|-------------|-------------|
| Total Claims Reported                        | 447         | 361         | 419         |
| Total Claims using Occupational Clinics      | 303         | 217         | 294         |
| Clinic Usage %                               | 67.8%       | 74.0%       | 75.4%       |
| Satisfaction Rating for Occupational Clinics | 98.1%       | 98.1%       | 97.4%       |
| *Total MPN Usage %                           | 78.6%       | 77.5%       | 80.2%       |
| **Total Bills Received                       | 14,043      | 15,042      | 14,979      |
| Total Bills in MPN                           | 11,037      | 11,658      | 12,015      |
| MPN Savings                                  | \$7,149,274 | \$5,588,069 | \$6,436,425 |

Table 2: MPN and Occupational Clinic Usage and Savings

\*Represents percent of claims with actual treatment

\*\*does not include med-legal, DME, or Rx bills

#### Pharmacy Benefits Program (PBM)

The PBM was designed to reduce the cost of medication and medical supplies by providing generics wherever possible and ensuring pharmacists in the program comply with Labor Code §4600.2 and Senate Bill 1160, which became effective January 1, 2018. SB 1160 reduces the risk of over-prescribing medication and opioid drugs by requiring new procedures for reviewing determinations regarding the medical necessity of medication prescribed according to drug formulary adopted by the Administrative Director. The pharmacy "first fill" card instituted as part of the program has prevented prescription delays and out-of-pocket expenses to the employee and increased savings above the official medical fee schedule. The table below summarizes the PBM program usage and savings.

| Pharmacy Benefits Program Usage     | 2018      | 2019      | 2020      |
|-------------------------------------|-----------|-----------|-----------|
| Total Prescriptions Dispensed       | 2,347     | 2,438     | 2,295     |
| Prescriptions Dispensed through PBM | 2,074     | 2,270     | 2,193     |
| CorVel PBM Usage %                  | 88.4%     | 93.1%     | 95.6%     |
| Prescription Charges                | \$796,413 | \$846,299 | \$824,021 |
| Total Paid                          | \$493,178 | \$516,275 | \$488,310 |
| Pharmacy Savings                    | \$303,235 | \$330,023 | \$335,711 |

**Table 3: PBM Program Usage and Savings** 

Human Resources Committee Meeting- November 10, 2020 Background and Attachments- Agenda Item No. 2B

#### Alternative Dispute Resolution Program (ADR)

The ADR program is a collaborative effort between the Orange County Professional Firefighters Association, Local 3631, and Executive Management, designed to expedite workers' compensation benefits by eliminating delays of the traditional workers' compensation system when disputes arise. The Department of Industrial Relations approved the program, and it became effective on October 1, 2014. The OCFA has experienced fewer delays, less litigation, faster medical treatment, and earlier resolution of disputes than in the traditional workers' compensation system, since the implementation of this program. OCFA's litigation rate is at 6% and remains below industry standards which is currently at 11%.

| ADR Tracking                           | 2018 | 2019 | 2020 |
|--|------|------|------|
| Total Claims Incurred                  | 475  | 361  | 419  |
| Count of claims eligible for ADR       | 427  | 339  | 391  |
| Number of claims that entered into ADR | 55   | 46   | 42   |
| Percentage of Litigated Claims         | 5.8% | 8.9% | 6.6% |
| Average # of Days Until ADR Resolution | 70   | 67   | 71   |

 Table 4: ADR vs. Traditional Workers' Compensation System Comparison

#### Enhanced Transitional Return to Work Program

Risk Management has been able to expedite the return to work process and returned more employees to a light-duty assignment through the improved coordination and communications with departments. This program has reduced disability, enhanced the employee's sense of value, expanded job skills, and maximized statutory workers' compensation benefits. The chart below summarizes the enhanced transitional return to work program for the fiscal year.

| Transitional Return to Work Program                                   | 2018  | 2019  | 2020   |
|---|-------|-------|--------|
| Employees Returned to Light Duty                                      | 55    | 33    | 36     |
| Returned to Light Duty Within 4 Business Days                         | 54    | 31    | 31     |
| Percent of Employees Returned to Light Duty Within 4<br>Business Days | 85.7% | 77.5% | 72.09% |
| Number of Assignments Filled with One or More<br>Employees            | 20    | 13    | 17     |
| Average Days on Light Duty  | 30    | 40    | 46     |
| Total Employees Eligible to Return to Light Duties                    | 63    | 40    | 43     |

Table 5: Transitional Return to Work Program Summary

#### **Claims Settlement**

The Board of Directors delegated workers' compensation claims settlement authority of \$250,000 to the Fire Chief. Workers' compensation claims settlement authority above \$250,000 requires the Full Board of Director's approval. The Board approved this new policy at the January 24, 2019 Board Meeting. The chart below summarizes the number of claim settlements approved during FY 2019/20.

| Settlement Approvals   | 2018 | 2019 | 2020 |
|--|------|------|------|
| Fire Chief or Designee (Compromise and Release Settlements)      | 5    | 10   | 13   |
| Fire Chief or Designee (Stipulation and Award Settlements)       | 68   | 151  | 127  |
| Claims Settlement Committee (Compromise and Release Settlements) | 8    | 3    | 0    |
| Claims Settlement Committee (Stipulation and Award Settlements)  | 15   | 0    | 0    |
| Board of Directors   | 0    | 0    | 0    |
| Total Claims   | 96   | 164  | 140  |

**Table 6: Settlements Approved** 

#### Claims Liaison

OCFA added the Liaison position to the OCFA workers' compensation program on January 1, 2020. It was created to assist the injured worker through the involved workers' compensation process and improve overall claims experience.

| Contact Type     | 2018 | 2019 | 2020 |
|------------------|------|------|------|
| Settlement       | -    | -    | 16   |

| General Q&A      | -    | -    | 205  |
| Benefit Question | -    | -    | 5    |

Table 7: Claims Liaison

#### Summary and Conclusions

Risk Management strives to ensure the services provided by our TPA remain compliant with the California workers' compensation laws and meet the needs of the OCFA employees. Although claims experience increased during the fiscal year, the workers' compensation program results in enhanced medical care to the injured employee and significant financial savings to the OCFA.

|                            | 2018          | 2019          | 2020          |
|----------------------------|---------------|---------------|---------------|
| TPA Administrative Fees    | \$560,952     | \$583,614     | \$618,540     |
| Bill Review Fee            | \$647,782     | \$708,176     | \$653,177     |
| Utilization Review Fees    | \$165,895     | \$202,440     | \$157,557     |
| Utilization Review Savings | (\$222,903)   | (\$672,001)   | (\$121,885)   |

#### I. BACKGROUND AND OBJECTIVES

#### A. Background

The Orange County Fire Authority (the "Authority" or "OCFA") is a joint powers authority consisting of 23 partner cities and unincorporated areas in Orange County, California. The Authority was formed in March, 1995, and provides fire, emergency medical, search and rescue, fire prevention, and hazardous materials response services from 71 fire stations throughout Orange County. The population served includes over 1.3 million residents in over 551 square mile area of Orange County.

On March 1, 2002, the Board of Directors adopted a self-insurance workers compensation program. The self-insured retentions ("SIR") have been \$600,000 per occurrence prior to January 1, 2004. Since January 1, 2004, the SIR has been \$2,000,000 per occurrence.

OCFA has purchased excess insurance attaching at the SIR. The current excess insurer is California State Association of Counties, Excess Insurance Authority ("CSAC-EIA").

Through June 1, 2014, York Claims Service, Inc. ("York") was the third party administrator handling the Authority's claims. Effective June 1, 2014, claims are handled by CorVel Corporation ("CorVel").

On April 20, 2012, OCFA entered into an agreement with the City of Santa Ana to assume its fire department workers' compensation exposures. These exposures are included in this report.

#### Purpose and Context of the Report

This report has been prepared to guide the Authority in establishing appropriate loss reserve estimates on the self-insurance program described above. Therefore, the report should be treated as a confidential, internal document belonging to the Authority. Authorized recipients of the report are counseled to protect the confidentiality of the report.

The report should not be used for any other purpose other than those stated above. Moreover, the findings and conclusions contained in this report should be interpreted within the context of the specified purpose.

The findings and recommendations contained in this report are based on claims and financial data as of the valuation date. It is also based on any other pertinent information provided to us through the review date. (Both the valuation date and review date are specified on the cover of this report.) We are not aware of any information subsequent to these dates that would have a material impact on our analysis, findings or recommendations.

#### **B.** Objectives

The specific objective of this study is to:

1. <u>Estimate the Outstanding Losses as of June 30, 2020.</u> Estimate the outstanding losses (including allocated loss adjustment expenses [ALAE]) and Unallocated Loss Adjustment Expenses as of June 30, 2020.

The estimated outstanding losses are the accrual cost of unpaid claims valued as of the accounting date. The estimated outstanding losses include case reserves, the development on known claims and incurred but not reported (IBNR) claims. ALAE are the direct expenses for settling specific claims. ULAE are the expenses for claims administration. The amounts reflect the specific and annual aggregate limits maintained by OCFA.

 <u>Project Ultimate Limited Losses for the Periods Effective July 1, 2019-20 through</u> <u>July 1, 2023-24.</u> Project the ultimate limited losses including ALAE and ULAE for claims with dates of loss during the next three upcoming periods.

The projected ultimate limited losses are the ultimate settlement value of all claims with dates of loss during each period, but capped at the Authority's SIR.

3. <u>Project Losses Paid for the Next Five Fiscal Years.</u> Project the losses paid (including allocated loss adjustment expenses ALAE and ULAE for claims disbursements made during 2019/20 through 2023/24.

## 4. <u>Affirm Government Accounting Standards Board Statement Number 10 ("GASB 10").</u>

Issue a statement affirming that the work performed and the conclusions contained in this report are consistent with GASB 10.

#### **II.** Conclusions

We have reached the following conclusions:

#### 1. Estimate the Outstanding Losses as of June 30, 2020.

We estimate the outstanding losses as of June 30, 2020 to be as shown in Table II-1.

| Confidence<br>Level<br>(1) | Estimated<br>Outstanding<br>Losses | Present Value of<br>Estimated<br>Outstanding<br>Losses |
|----------------------------|------------------------------------|--|
| (A) Expected (i.e., 50%)   | \$108,684,439                      | (3)<br>\$103,945,795                                   |
| (B) 60%                    | \$113,031,817                      | \$108,103,627  |
| (C) 70%                    | \$120,639,727                      | \$115,379,832  |
| (D) 80%                    | \$130,421,327                      | \$124,734,954  |
| (E) 90%                    | \$141,289,771                      | \$135,129,534  |
| (F) ULAE                   | \$7,607,911                        | \$7,276,206  |

## Table II-1Estimated Outstanding Losses (including ALAE) and ULAEAs of June 30, 2020

Note: (A) is extracted from Appendix C, Exhibit WC-12, page 1, columns (9) and (11).
(B) through (E) are based on (A) and confidence level factors derived from a loss distribution with a Coefficient of Variation of 0.20 and actuarial judgment.
(F) = (A) x 0.07 based previous analyses and actuarial judgment.

The estimated outstanding losses reflect the insurance limits maintained by OCFA. The amounts in column (2) above are undiscounted. The amounts in column (3) are discounted based on a 1% interest rate on earnings assumption.

Row (F), column (3) shows the discounted ULAE provision. Both provisions should be recognized on the Authority's financial statements.

The estimated ULAE in Table II-1, row (F) is the total dollar amount required to handle all claims that have occurred on or before June 30, 2020 to their final settlement.

#### Current Liabilities vs. Long-Term Liabilities

Current liabilities are the amount of estimated outstanding losses that OCFA is expected to pay off during the next fiscal year. Long-term liabilities are the remaining estimated outstanding losses (i.e., the portion of estimated outstanding losses that will be paid off in fiscal years beyond the upcoming fiscal year.)

The forecast of current liabilities for the estimated outstanding losses as of June 30, 2020 total approximately \$17.7 million (cf. Exhibit WC-12, page 2, column (8), excluding the projected payments for claim period 2020/21). The estimate of long-term liabilities is the difference between the amounts shown in Table II-1 and the forecast of current liabilities.

#### 2. <u>Project the Ultimate Limited Losses (including ALAE) and ULAE for 2019/20 through</u> 2023/24.

We project the ultimate limited losses (including ALAE) and ULAE for claims with dates of loss in 2019/20 through 2023/24 to be as shown in Table II-2A through Table II-2E, respectively.

| Confidence<br>Level<br>(1) | Projected<br>Ultimate Limited<br>Losses<br>(2) | Present Value of<br>Ultimate Limited<br>Losses<br>(3) |
|----------------------------|--|---|
| (A) Expected (i.e., 50%)   | \$23,115,543                                   | \$21,724,158  |
| (B) 60%                    | \$24,271,320                                   | \$22,810,366  |
| (C) 70%                    | \$26,351,719                                   | \$24,765,540  |
| (D) 80%                    | \$29,125,584                                   | \$27,372,439  |
| (E) 90%                    | \$33,517,537                                   | \$31,500,029  |
| (F) ULAE                   | \$1,618,088                                    | \$1,520,691   |

#### Table II-2A Projected Ultimate Limited Losses (including ALAE) and ULAE July 1, 2019-20

Note: (A) is extracted from Appendix C, Exhibit WC-9, columns (9) and (12).

(A) is based on projected payroll of approximately \$185,518,000.

(B) through (E) are based on a (A) and confidence level factors derived from a loss distribution with a Coefficient of Variation of 0.25 and actuarial judgment.
 (F) = 7.0% of (A), which is based on historical TPA fees, other similar programs

(F) = 7.0% of (A), which is based on historical TPA fees, other similar program with which we are familiar and actuarial judgment.

The projected ultimate limited losses reflect OCFA's SIR of \$2,000,000 per occurrence. The ULAE funding recommendation reflects the ultimate third party administration fees to handle those claims that occur during 2019/20. We emphasize the third party administration fees to be paid during the period will exceed this amount because the third party administrator will be handling claims that occurred in prior periods. However, the fees associated with handling these prior claims during the period have been accounted for in our estimated outstanding ULAE from Table II-1, row (F).

We project the ultimate limited losses (including ALAE) and ULAE for 2020/21 to be as shown in Table II-2B

| Confidence<br>Level<br>(1) | Projected<br>Ultimate Limited<br>Losses<br>(2) | Present Value of<br>Ultimate Limited<br>Losses<br>(3) |
|----------------------------|--|---|
| (A) Expected (i.e., 50%)   | \$23,690,592                                   | \$22,262,107  |
| (B) 60%                    | \$24,875,122                                   | \$23,375,212  |
| (C) 70%                    | \$27,007,275                                   | \$25,378,802  |
| (D) 80%                    | \$29,850,146                                   | \$28,050,255  |
| (E) 90%                    | \$34,351,358                                   | \$32,280,055  |
| (F) ULAE                   | \$1,658,341                                    | \$1,558,347   |

## Table II-2BProjected Ultimate Limited Losses (including ALAE) and ULAEJuly 1, 2020-21

Note: (A) is extracted from Appendix C, Exhibit WC-9, columns (9) and (12).

(A) is based on projected payroll of approximately \$185,518,000.

(B) through (E) are based on a (A) and confidence level factors derived from a loss distribution with a Coefficient of Variation of 0.25 and actuarial judgment.
(F) = 7.0% of (A), which is based on historical TPA fees, other similar programs with which we are familiar and actuarial judgment.

The projected ultimate limited losses (including ALAE) assume OCFA will retain the first \$2,000,000 per occurrence in 2020/21. The projected ultimate ULAE for 2020/21 assumes OCFA will contract with a third party administrator subject to similar terms and conditions that are in effect with the current contract.

We project the ultimate limited losses (including ALAE) and ULAE for 2021/22 to be as shown in Table II-2C.

| Confidence<br>Level<br>(1) | Projected<br>Ultimate Limited<br>Losses<br>(2) | Present Value of<br>Ultimate Limited<br>Losses<br>(3) |
|----------------------------|--|---|
| (A) Expected (i.e., 50%)   | \$24,284,248                                   | \$22,818,660  |
| (B) 60%                    | \$25,498,460                                   | \$23,959,593  |
| (C) 70%                    | \$27,684,043                                   | \$26,013,272  |
| (D) 80%                    | \$30,598,152                                   | \$28,751,512  |
| (E) 90%                    | \$35,212,160                                   | \$33,087,057  |
| (F) ULAE                   | \$1,699,897                                    | \$1,597,306   |

#### Table II-2C Projected Ultimate Limited Losses (including ALAE) and ULAE July 1, 2021-22

Note: (A) is extracted from Appendix C, Exhibit WC-9, columns (9) and (12).

(A) is based on projected payroll of approximately \$185,518,000.

(B) through (E) are based on a (A) and confidence level factors derived from a loss distribution with a Coefficient of Variation of 0.25 and actuarial judgment.
(F) = 7.0% of (A), which is based on historical TPA fees, other similar programs with which we are familiar and actuarial judgment.

The projected ultimate limited losses (including ALAE) assume OCFA will retain the first \$2,000,000 per occurrence in 2021/22. The projected ultimate ULAE for 2021/22 assumes OCFA will contract with a third party administrator subject to similar terms and conditions that are in effect with the current contract.

We project the ultimate limited losses (including ALAE) and ULAE for 2022/23 to be as shown in Table II-2D.

| Confidence<br>Level<br>(1) | Projected<br>Ultimate Limited<br>Losses<br>(2) | Present Value of<br>Ultimate Limited<br>Losses<br>(3) |
|----------------------------|--|---|
| (A) Expected (i.e., 50%)   | \$24,896,456                                   | \$23,393,764  |
| (B) 60%                    | \$26,141,279                                   | \$24,563,452  |
| (C) 70%                    | \$28,381,960                                   | \$26,668,891  |
| (D) 80%                    | \$31,369,535                                   | \$29,476,143  |
| (E) 90%                    | \$36,099,861                                   | \$33,920,958  |
| (F) ULAE                   | \$1,742,752                                    | \$1,637,563   |

#### Table II-2D Projected Ultimate Limited Losses (including ALAE) and ULAE July 1, 2022-23

Note: (A) is extracted from Appendix C, Exhibit WC-9, columns (9) and (12).

(A) is based on projected payroll of approximately \$185,518,000.

(B) through (E) are based on a (A) and confidence level factors derived from a loss distribution with a Coefficient of Variation of 0.25 and actuarial judgment.
(F) = 7.0% of (A), which is based on historical TPA fees, other similar programs with which we are familiar and actuarial judgment.

The projected ultimate limited losses (including ALAE) assume OCFA will retain the first \$2,000,000 per occurrence in 2022/23. The projected ultimate ULAE for 2022/23 assumes OCFA will contract with a third party administrator subject to similar terms and conditions that are in effect with the current contract.

We project the ultimate limited losses (including ALAE) and ULAE for 2023/24 to be as shown in Table II-2E.

| Confidence<br>Level<br>(1) | Projected<br>Ultimate Limited<br>Losses<br>(2) | Present Value of<br>Ultimate Limited<br>Losses<br>(3) |
|----------------------------|--|---|
| (A) Expected (i.e., 50%)   | \$25,508,664                                   | \$23,987,420  |
| (B) 60%                    | \$26,784,097                                   | \$25,186,791  |
| (C) 70%                    | \$29,079,877                                   | \$27,345,659  |
| (D) 80%                    | \$32,140,917                                   | \$30,224,149  |
| (E) 90%                    | \$36,987,563                                   | \$34,781,759  |
| (F) ULAE                   | \$1,785,606                                    | \$1,679,119   |

## Table II-2EProjected Ultimate Limited Losses (including ALAE) and ULAEJuly 1, 2023-24

Note: (A) is extracted from Appendix C, Exhibit WC-9, columns (9) and (12).

(A) is based on projected payroll of approximately \$185,518,000.

(B) through (E) are based on a (A) and confidence level factors derived from a loss distribution with a Coefficient of Variation of 0.25 and actuarial judgment.
(F) = 7.0% of (A), which is based on historical TPA fees, other similar programs with which we are familiar and actuarial judgment.

The projected ultimate limited losses (including ALAE) assume OCFA will retain the first \$2,000,000 per occurrence in 2023/24. The projected ultimate ULAE for 2023/24 assumes OCFA will contract with a third party administrator subject to similar terms and conditions that are in effect with the current contract.

## 3. <u>Project the Losses (including ALAE) and ULAE to be Paid in 2019/20 through 2023/24.</u>

We project the losses (including ALAE) and ULAE to be paid in 2019/20 through 2023/24 to be as shown in Table II-3.

| Fiscal<br>Period<br>(1) | Projected<br>Losses (including ALAE)<br>Paid<br>(2) | Projected<br>ULAE<br>Paid<br>(3) |
|-------------------------|---|----------------------------------|
| (A) July 1, 2019-20     | \$17,579,564  | \$1,230,569                      |
| (B) July 1, 2020-21     | \$20,057,235  | \$1,404,006                      |
| (C) July 1, 2021-22     | \$20,804,622  | \$1,456,324                      |
| (D) July 1, 2022-23     | \$21,162,979  | \$1,481,409                      |
| (E) July 1, 2023-24     | \$21,667,502  | \$1,516,725                      |

## Table II-3Projected Losses (including ALAE) and ULAE To Be Paid in<br/>2019/20 through 2023/24

Note: (2) is extracted from Appendix C, Exhibit WC-12, pages 1 through 5, column (8). (3) = (2) x 7%. The percentage is selected based on the ratio of historical payments.

#### 4. Affirm GASB 10.

We affirm that the conclusions shown above in the tables were derived using appropriate actuarial methods and assumptions. Therefore, our conclusions are consistent with GASB 10. The actuarial methods and assumptions we used to derive these conclusions are documented in the exhibits shown in Appendix C of this report.

We encourage the independent auditor to contact us with any questions to ensure our report is interpreted correctly, and is incorporated appropriately into the independent financial audit of OCFA.

#### **Discussion of Data Reliance**

Responsible staff members of CorVel, York and OCFA provided us with loss data and payroll data. The loss data we received was contained in Excel files. The different files contained claims data valued as of different accounting dates (from June 30, 2009 and successive June 30<sup>th</sup> and December 31<sup>st</sup> valuations.) We compiled the data in these files and compared the results. We found all files to be internally consistent.

In addition, we compared the compiled data with the data shown in previous actuarial report prepared by us last year. Our data compilation proved consistent with the summarized data shown in the previous actuarial report.

#### Comparisons with Previous Report

Our previous report (based on claims data valued as of June 30, 2019), showed estimated the outstanding losses as of June 30, 2019 to total approximately \$103.1 million (undiscounted, expected confidence level). The current report shows estimated outstanding losses (as of December 31, 2019) to be approximately \$106.9 million (undiscounted, expected confidence level.); the referenced amounts may be found in Exhibit WC-10 of this report. In the previous report, we projected ultimate losses for 2018/19 and prior to total \$225.0 million. In the current report, we project ultimate losses for 2018/19 and prior to total \$225.1 million.

<u>Appendix A</u>

#### **CONDITIONS AND LIMITATIONS**

#### Appendix A

#### **CONDITIONS AND LIMITATIONS**

It is important to understand the conditions and limitations listed below. Each chapter and section is an integral part of the whole study. If there are questions, please contact RCS for clarification.

- **Data Quality.** We relied upon data provided by the organization shown on the transmittal page or its designated agents. The data was used without verification or audit, other then checks for reasonableness. Unless otherwise stated, we assumed the data to be correct and complete.
- **Economic Environment.** Unless otherwise stated, we assumed the current economic conditions will continue in the foreseeable future.
- **Insurance Coverage.** Unless otherwise stated, we assumed no insurance coverage changes (including coverage provided by the organization to others) subsequent to the date this study was prepared. This includes coverage language, self-insured retention, limitations and similar issues.
- **Insurance Solvency.** Unless otherwise stated, we assumed all insurance purchased by the organization is from solvent sources payable in accordance with terms of the coverage document.
- Interest Rate. The exhibits specify the annual interest rate(s) used. The interest rate(s) used were specified by the organization shown on the transmittal page or its designated agents. We express no opinion regarding the appropriateness of the interest rate(s) used in this report.
- **Methodology.** In this study, different actuarial methods were applied. In some instances, the methods yield significantly disparate results. The estimates, projections and recommendations in this study reflect our judgments as to the best method or combination of methods that are most reliable and reflective of the exposure to loss.
- **Reproduction.** This study may only be reproduced in its entirety. We caution third parties to not distribute this report to any party without the express written consent of RCS and the parties, who engaged RCS to prepare this report, because the report contains privileged information and unauthorized distribution of the report might be a violation of local laws. In particular, we direct the reader to the California Code of Regulations, Title 8, Section 15405, and recommend seeking legal advice before disseminating any information contained in this report to any party. Moreover, ASOP 21, Section 3, Paragraph 4, states, "An audit or examination may give rise to the exchange of confidential information. Any information received by the reviewing actuary should be considered confidential, except as to the auditor or examiner, unless otherwise indicated by the entity. The reviewing actuary should take appropriate steps to preserve the confidentiality of such information."
- **Risk and Variability.** Insurance is an inherently risky enterprise. Actual losses may vary significantly from our estimates, projections and recommendations. They may emerge higher or lower.

- **Statutory and Judicial Changes.** Legislatures and judiciaries may change statutes that govern indemnification. This includes benefit levels for workers compensation, immunities and limitations for liability, and other similar issues. Unless otherwise stated, we assumed no statutory changes subsequent to the date this study was prepared.
- **Supplemental Data.** In addition to the data provided by the organization, we supplemented our analysis with data from similar organizations and insurance industry statistics, as we deemed appropriate.
- Usage. This study has been prepared for the usage of the organization shown on the transmittal page. It was not prepared for and may not be appropriate for use by other organizations. Other organizations should obtain counsel from RCS prior to use of this study.
- Assets. We have not examined the assets underlying the corresponding losses and ALAE under review. We form no opinion as to the validity or value of these assets. Throughout our analysis, we assume the reserves are backed by valid assets, which have suitably scheduled maturities or adequate liquidity to meet cash flow requirements.
- **Mass Tort and Terrorism.** Unless specifically stated, our analysis does not reflect any provision for risk exposure from mass torts or terrorism, because these risk exposures were outside the scope of our work.
- Intended Use Disclosure (per ASOP 43). We understand the intended use of the estimated outstanding losses is for internal management reporting and external financial reporting purposes. Because the internal management reporting is consistent with external financial reporting, we are unaware of conflicts (actual or otherwise) that might arise from this dual usage.
- **Constraints Disclosure (per ASOP 43).** We worked with the most readily available data provided by OCFA and its claims administrator(s). The data appeared to be of excellent quality. We were provided ample time to perform the work; therefore, we have no constraints regarding deadlines. In addition, the OCFA and its claims administrator(s) cooperated fully with our requests for information.
- Scope of Unpaid Claim Estimate Disclosure #1 Type of Estimate (per ASOP 43). Throughout the report, we calculated an "actuarial central estimate" of the loss reserve. We have also included a range of reasonable estimates of the loss reserves expressed in the form of confidence levels. We emphasize that the range of reasonable estimates is not a range of all possible outcomes; rather, it is our estimate of likely outcomes of the actuarial central estimate. Although unlikely, losses may emerge outside our range of reasonable estimates.
- Scope of Unpaid Claim Estimate Disclosure #2 Purpose of Estimate (per ASOP 43). We believe the range of reasonably possible outcomes around the actuarial central estimate is an appropriate guide to management for internal and external financial reporting purposes.
- Scope of Unpaid Claim Estimate Disclosure #3 Discounting (per ASOP 43). We calculated our range of reasonably possible outcomes around the actuarial central estimates at full-value (i.e., undiscounted). We calculated estimates at present value (i.e., discounted to reflect the time value of money).

- Gross or Net of Specified Recoverables Disclosure (per ASOP 43). Because the OCFA purchases reinsurance and/or participates in insurance pools, all amounts in this report should be understood to be net of recoverables unless specifically identified to the contrary.
- **Collectability Risk Disclosure (per ASOP 43).** Except as otherwise noted in our report, our discussions with the OCFA did not reveal any collectability risk as of the date of this report.
- Unpaid Claim Adjustment Expense Disclosure (per ASOP 43). A provision for ULAE is included in the amounts shown in this report. Amounts for ALAE have been included.
- Type of Claims Covered in the Analysis Disclosure (per ASOP 43). The background section of this report describes the type of claims covered in the analysis. In addition, the text in the conclusion section specifies any modifications to the description contained in the background section.
- **Review Date Disclosure (per ASOP 43)**. Our "review date" (i.e., cut-off date for including information into our analysis) is the date shown on the cover of the report or the date of the transmittal letter.
- Acknowledgement of Qualification (per ASOP 41). The opining actuary(ies) that have prepared this report meet the requisite qualification standards as enacted in the "Qualification Standards" effective January 1, 2008.

<u>Appendix B</u>

#### **GLOSSARY OF ACTUARIAL TERMS**

#### Appendix **B**

#### **GLOSSARY OF ACTUARIAL TERMS**

#### Actuarial Methods (Most Common)

A major objective of an actuarial study is to statistically project ultimate losses. The following actuarial methods are the most common:

- Developed Paid Losses
- Developed Reported Incurred Losses
- Developed Case Reserves
- Frequency Times Severity Analysis
- Loss Rate Analysis

The following describes each method:

1. **Developed Paid Losses.** Paid losses represent the amounts actually paid to claimants (less excess insurance recoveries). As time goes on, loss payments continue until all claims are closed and there are no remaining payments expected. At this time, the ultimate losses for the claim period are known. This common process is called "paid loss development."

Paid loss development is an extrapolation of actual dollars paid. It does not depend on case reserve estimates. A potential shortcoming of utilizing this method is that only a small fraction of total payments have been made for the most recent claim periods. Extrapolating ultimate losses based on small amounts of actual payments may be speculative. A second potential shortcoming is that payment patterns can change over time.

2. <u>Developed Reported Incurred Losses</u>. Reported incurred losses are paid losses plus case reserves. In most programs, total reported incurred losses underestimate the ultimate losses. Over time, as more information about a body of claims becomes known, they are adjusted either up or down until they are closed. Though many individual claims settle for less than what was estimated, these decreases are generally more than offset by increases in the cost of other claims for which new information has emerged.

The net effect is that total estimated costs are often revised upward over time. This normal process is called "reported incurred loss development." Actuaries typically review the development patterns of the recent past to make projections of the expected future loss development and, therefore, estimations of ultimate losses.

3. <u>Developed Case Reserves</u>. The developed case reserves method is a hybrid of the paid loss development and reported incurred loss development methods. It relies on the historical adequacy of case reserves to predict ultimate losses.

- 4. **Frequency Times Severity Analysis.** The frequency times severity analysis is an actuarial method that uses a preliminary projection of ultimate losses to project claims severity. The claims severity times the number of claims is a predictor of ultimate losses. The focus of the frequency times severity analysis is that ultimate losses each period are dependent on the number of claims.
- 5. **Loss Rate Analysis.** The loss rate analysis is based on the historical loss rates per exposure unit (such as payroll, vehicles or property value). The loss rates (projected ultimate losses divided by exposure units) are trended to reflect the effect of claim cost inflation and retention changes. The trended loss rates represent the rates that one would see if all of the claims had been handled in the claim cost environment that will be present in the upcoming period. The trended loss rate times the projected exposure units is a predictor of losses.
- 6. **Bornhuetter-Ferguson Method (B-F).** The B-F method is an actuarial method that weights a preliminary projection of ultimate losses with projections of ultimate losses determined by other actuarial methods (usually the developed paid losses and developed reported incurred losses methods). For less mature claim periods, the B-F method leans more heavily to the preliminary projection. It gradually converges to the projections of ultimate losses determined by the other actuarial methods as the claim periods mature.

# <u>Actuary</u>

A specialist trained in mathematics, statistics, and finance who is responsible for rate, reserve, and dividend calculations and other statistical studies.

# Allocated Loss Adjustment Expenses

Allocated loss adjustment expenses (ALAE) are the direct expenses to settle specific claims. These expenses are primarily legal expenses.

Accounting standards require that ALAE be included in financial statements and that they be calculated by actuarial methods.

## American Academy of Actuaries

A society concerned with the development of education in the field of actuarial science and with the enhancement of standards in the actuarial field. Members may use the designation MAAA (Member, American Academy of Actuaries).

# **Benefits**

The financial reimbursement and other services provided insureds by insurers under the terms of an insurance contract. An example would be the benefits listed under a life or health insurance policy or benefits as prescribed by a workers compensation law.

# Casualty Actuarial Society

A professional society for actuaries in areas of property and casualty insurance work. This society grants the designation of Associate of the Casualty Actuarial Society (ACAS) and Fellow of the Casualty Actuarial Society (FCAS).

# <u>Claim</u>

Demand by an individual or entity to recover for a loss.

# **Claims Made**

A policy written on this basis covers only those claims that are made during the policy period. Coverage for prior acts is provided back to what is known as the retroactive date, which is the effective date of the original claims made policy with the same insurer.

# **Composite Rate**

A single rate with a single basis of premium (e.g., payroll or sales). For this single rate the insured is covered for a variety of hazards, such as premises and operations, completed operations, products liability, and automobile. Its primary value is to compute premium simply.

# **Confidence** Level

A confidence level is the statistical certainty that an actuary believes funding will be sufficient. For example, an 80% confidence level means that the actuary believes funding will be sufficient in eight years out of ten.

Confidence levels are determined based on mathematical models. Coverages that are low frequency and high severity (such as excess liability) are subject to greater risk than coverages that are high frequency and low severity (such as automobile physical damage). Therefore, they need a greater margin to attain a given confidence level.

Expected corresponds to approximately a 55% confidence level. Amounts above expected are prudent, but should be considered equity (not a liability).

# **Coverage**

The scope of the protection provided under a contract of insurance.

# **Credibility**

Credibility is the belief that the sample data is an accurate reflection of the larger population. Credibility is highest when the sample data is large and the standard deviation (discussed later) of the larger population is low.

# Dates

There are at least three milestone dates in a claim. They are the date of injury or accident, the date of report and the date of closure. It is best if each of these dates is recorded. Some organizations may also keep the date a claim becomes a lawsuit, as opposed to a demand. RCS recommends this additional level of detail, especially if the data is to be used for litigation management.

# **Deductible**

The portion of an insured loss to be borne by the insured before he is entitled to recovery from the insurer. Deductibles may be expressed as a dollar amount, percentage or waiting period.

# **Disability**

A condition that curtails a person's ability to carry on his normal pursuits. A disability may be partial or total, and temporary or permanent.

# **Dividend (Policyholder)**

The return of part of the premium paid for a policy issued on a participating basis by either a mutual or a stock insurer.

# **Estimated Outstanding Losses**

Estimated outstanding losses are the cost of claims that have occurred but have not yet been paid. They typically include indemnification and allocated loss adjustment expenses (ALAE), but not unallocated loss adjustment expenses (ULAE).

Estimated outstanding losses are calculated as projected ultimate losses less paid losses. Alternatively, they are the sum of case reserves and incurred but not reported (IBNR) claims.

# Estimated Outstanding Losses (continued)

Estimated outstanding losses are usually the largest single item listed as a liability on the balance sheet of an insurer's financial statement. Accounting standards require they be calculated by actuarial methods. Other common names for estimated outstanding losses are outstanding claims liabilities and unpaid claims.

The uncertainty inherent in the estimation of required provision for unpaid losses or loss adjustment expenses implies that a range of reserves can be actuarially sound. The true value of the liability for losses or loss adjustment expenses at any accounting date can be known only when all attendant claims have been settled.

The most appropriate reserve within a range of actuarially sound estimates depends on both the relative likelihood of estimates within the range and the financial reporting context in which the reserve will be presented.

# **Experience Rating**

A method of adjusting the premium for a risk based on past loss experience for that risk compared to loss experience for an average risk.

# Exposure Data

Exposure data refers to the activities of the organization. For example, payroll is the most common exposure measure for workers compensation. RCS suggests collecting exposure data with the following characteristics:

- **Readily Available.** The exposure data should be easily obtained. It is best if it is a byproduct of other activities, although this is not always possible. If getting data is arduous, it may discourage collection.
- Vary With Losses. The exposure data should correlate directly with losses. The ideal situation is where exposure and expected losses move in tandem. The exposure base needs to be fitting to the coverage. For example, the number of employees may vary with property losses (more employees = more office space = more losses), but property value is a clearly superior exposure base for property losses.

# **Generally Accepted Accounting Principles (GAAP)**

These principles are intended to produce financial results (in the insurance industry) consistent with those of other industries and to assure consistency in financial reporting.

# **Incurred But Not Reported**

IBNR is really comprised of two distinct items. These are the development of known case reserves (incurred but not enough reported [IBNER] and incurred but not yet reported [IBNYR]).

IBNER are the actuary's estimate of the inadequacy of case reserves. Most claims settle at amounts close to what is set by the claims administrator. Some claims close favorably and some emerge as more expensive. On balance, case reserves tend to be too low (especially for recent years). IBNER is the actuary's estimate of the amount total case reserves will rise upon closure.

IBNYR refers to those claims that have occurred, but have not yet been reported. A classic example is medical malpractice claim reported several years after the medical procedure was performed.

# **Insurance Services Office (ISO)**

An organization of the property and casualty insurance business designed to gather statistics, promulgate rates, and develop policy forms.

# **Investment Income**

The return received by entities from their investment portfolios, including interest, dividends and realized capital gains on stocks. Realized capital gains means the profit realized on assets that have actually been sold for more their purchase price.

# **Limited**

Most programs purchase excess insurance for catastrophic claims. For example, they may purchase coverage for claims above a \$500,000 per occurrence self-insured retention. Limited refers to an estimate or projection being limited to the self-insured retention. In contrast, unlimited refers to a loss projection that is not limited to the self-insured retention.

Other common names for limited are net of excess insurance or capped losses.

# Loss Development

The difference between the amount of losses initially estimated by the insurer and the amount reported in an evaluation on a later date. Loss development is typically measured for paid losses, reported incurred losses and claim counts.

# Manual Rates

Usually, the published rate for some unit of insurance. An example is in the workers compensation manual, where the rates shown apply to each \$100 of the payroll of the insured, \$100 being the "unit."

# National Council on Compensation Insurance (NCCI)

An association of workers compensation insurance companies whose main functions are collecting statistics and calculating rates, establishing policy wording, developing experience and retrospective rating plans, and serving as the filing organization for member companies.

# <u>Net</u>

Many pooling programs assign deductibles to members. For example, each member may have a \$5,000 per claim deductible. "Net" refers to a loss estimate or projection that excludes amounts below member deductibles.

# **Occurrence**

An event that results in an insured loss. In some lines of insurance, such as general liability, it is distinguished from accident in that the loss does not have to be sudden and fortuitous and can result from continuous or repeated exposure that results in bodily injury or property damage neither expected nor intended by the insured.

# <u>Pool</u>

An organization of entities through which particular types of risks are written with the premiums, losses, and expenses shared in agreed amounts among the members belonging to the organization.

## Premium

The price of insurance protection for a specified risk for a specified period of time.

## Present Value

The amount of money that future amounts receivable are currently worth. For example, a Life Insurance policy may provide for payments to be made monthly for ten years. The present value of that money would be less than the total amount of the regular periodic payments for 10 years because of the amount of interest that a present lump sum could earn during the term than the payments otherwise would have been made.

## **Probability**

The probability is the likelihood of an event. It is a measure of how likely a value or event is to occur. It can be measured from data by calculating the number of occurrences of the value or event divided by the total number of occurrences. This calculation can be converted to a percentage. For example, tossing a coin has a 50% probability of heads or tails.

# **Projected Losses Paid**

Projected losses paid are the projected claims disbursements in a period, regardless of when the claim occurred. They typically include indemnification and ALAE, but not unallocated loss adjustment expenses (ULAE).

"Projected losses paid" is a cash-flow analysis that can be used in making investment decisions.

# **Projected Ultimate Losses**

Projected ultimate losses are the accrual value of claims. They are the total amount that is expected to be paid in a particular claim period after all claims are closed. Projected ultimate losses are the total loss costs for a particular period. They typically include indemnification and ALAE, but not ULAE.

Other common names for projected ultimate losses are expected losses, ultimate losses and total losses.

# **Range of Reasonable Estimates**

According to actuarial statements of principles and standards of practice, a range of reasonable estimates of the provision for unpaid claims can be actuarially sound.

Due to the uncertainty inherent in estimating the provision for unpaid claims, the range of reasonable estimates is a narrower range than the range of all possible outcomes or the range of all likely outcomes.

# <u>Rate</u>

The cost of a given unit of insurance. For example, in life insurance, it is the price of \$1,000 of the face amount. In property insurance, it is the rate per \$100 of value to be insured. The premium is the rate multiplied by the number of units of insurance purchased.

## **Retrospective Rating**

A method for which the final premium is not determined until the end of the coverage period, and is based on the insured's own loss experience for that same period. It is usually subject to a maximum and minimum premium. A plan of this type can be used in various types of insurance, especially workers compensation and liability, and is usually elected by only very large insureds.

## **Salvage**

Property taken over by an entity to reduce its loss. Automobile physical damage losses can be reduced by the sale of recovered vehicles.

# **Schedule Rating**

The application of debits or credits within established ranges for various characteristics of a risk according to an established schedule of items. Under liability and automobile insurance, the schedule rating plan allows credits and debits for various good or bad features of a particular commercial risk. An example in automobile schedule rating would be allowing credits for driver training classes or fleet maintenance programs.

# Self-Insurance Retention (SIR)

That portion of a risk or potential loss assumed by an insured. It is often in the form of a per occurrence deductible.

# Society of Actuaries (SOA)

A professional society for actuaries in areas of pensions, and life and health insurance work. The SOA grants the designation Associate of the Society of Actuaries (ASA) and Fellow of the Society of Actuaries (FSA).

# Standard Premium

Most often used in connection with retrospective rating for Workers Compensation and General Liability Insurance, it is the premium of which the basic premium is a percentage and is developed by applying the regular rates to an insured's payroll.

# State Fund

A fund set up by a state government to finance a mandatory insurance system, such as Workers Compensation or non-occupational disability benefits. Such a fund may be monopolistic, i.e., purchasers of the type of insurance required must place it in the state fund; or it may be competitive, i.e., an alternative to private insurance if the purchaser desires to use it.

# **Statutory Accounting Principles (SAP)**

Those principles required by statute that must be followed by an insurance company or other similar entity when submitting its financial statement to the state insurance department. Such principles differ from (GAAP) in some important respects. For one thing SAP requires that expenses must be recorded immediately and cannot be deferred to track with premiums as they are earned and taken into revenue.

## **Unallocated Loss Adjustment Expenses**

Unallocated loss adjustment expenses (ULAE) are the indirect expenses to settle claims. These expenses are primarily administration and claims handling expenses.

Accounting standards require that ULAE be included in financial statements and that they be calculated by actuarial methods.

Appendix C

# Orange County Fire Authority AGENDA STAFF REPORT

Human Resources Committee Meeting November 10, 2020 Agenda Item No. 2C Consent Calendar

New Classification Specification for Diversity and Inclusion Coordinator

#### **Contact**(s) for Further Information

| Stephanie Holloman, Assistant Chief<br>Human Resources Department | stephanieholloman@ocfa.org | 714.573.6353 |
|---|----------------------------|--------------|
| Tamaryn Boston, Manager<br>Human Resources Department             | tamarynboston@ocfa.org     | 714.573.6018 |

#### **Summary**

This agenda item is submitted for approval to establish a new classification specification for Diversity and Inclusion Coordinator, with corresponding salary range.

#### **Prior Board/Committee Action**

Not Applicable.

#### **RECOMMENDED** ACTION(S)

Review the proposed agenda item and direct staff to place the item on the agenda for the Executive Committee meeting of November 19, 2020, with the Human Resources Committee's recommendation that the Executive Committee approve the establishment of the new classification and salary range of Diversity and Inclusion Coordinator.

#### **Impact to Cities/County**

Not Applicable.

#### **Fiscal Impact**

One (1) Diversity and Inclusion Coordinator position in the Human Resources Department is funded in the current fiscal year 2020/21 general fund budget. The funding that we estimated in the budget for this position is greater than ultimately required after developing the class specification and proposed salary range with benefits, resulting in savings of \$84,627 at top step.

#### Background

Today, the shift in both organizational and public response to issues of diversity, equity, inclusion, discrimination, and harassment have brought more visibility to and increasing demand for the role of Diversity and Inclusion professionals. In OCFA's Strategic Goals for Fiscal Year 2020/21, the organization established a goal to implement actions to increase diversity of OCFA's workforce and to improve the OCFA's inclusive environment, which includes a focus on cultural growth, consistent messaging, and facility accommodations.

The Diversity and Inclusion Coordinator will work across the organization to optimize organizational culture, align the organization's diversity and inclusion goals with measurable outcomes, and will be able to respond to changes or policies that occur outside of the organization that affect the OCFA.

The Diversity and Inclusion Coordinator will be responsible for providing strategic leadership in the areas of diversity, equity, and inclusion (DEI). This position will develop and maintain an organizational DEI Strategic Plan, through a collaborative stakeholder process, to support the OCFA's vision to embrace diversity and inclusion; design, develop and implement innovative outreach programs using DEI best practices in support of recruitment goals, succession planning, and leadership development; and lead discussion across the organization on complex and sensitive topics surrounding race, color, religion, gender, gender identity, gender expression, sexual orientation, marital status, medical condition, genetic information, veteran status, and other protected classes in order to foster positive attitudes and behaviors about diversity and inclusion.

The proposed salary range is AM40 (Monthly Max: \$11,003), which aligns with Senior Human Resources Analyst, Risk Management Analyst, and Risk Management Safety Officer. This position was included in the 2020/2021 budget and is fully funded at this level.

Executive Committee approval is required to add a new classification with accompanying salary range to Master Position Control.

#### Attachment(s)

Proposed Diversity and Inclusion Coordinator Classification Specification

# ORANGE COUNTY FIRE AUTHORITY

**CLASS SPECIFICATIONS** 

**JOB TITLE: Diversity and Inclusion Coordinator** 

### **<u>REPORTS TO:</u>** Human Resources Director <u>FLSA:</u> Exempt

SUPERVISES: N/A

**CLASS CODE:** TBD

#### **DEPARTMENT:** Human Resources

#### **CLASS SUMMARY:**

Incumbents are responsible for providing strategic leadership in the areas of diversity, equity, and inclusion (DEI). Duties to be performed will consist of complex professional level work in the creation, development, and performance of DEI programs and activities in the organization. Incumbents are required to work independently and to exercise sound judgment in analyzing highly complex programs and issues.

#### **DISTINGUISHING CHARACTERISTICS:**

The Diversity and Inclusion Coordinator is a stand-alone classification. This position is distinguished from other classifications by its responsibility for applying specialized DEI knowledge.

**ESSENTIAL FUNCTIONS:** (These duties are intended to be representative sample of the duties performed by the class.)

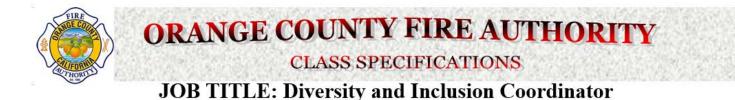

Develops and maintains an organizational DEI Strategic Plan, through a collaborative stakeholder process, to support the OCFA's vision to embrace diversity and inclusion.

Designs, develops and implements innovative outreach programs using DEI best practices in support of recruitment goals, succession planning, and leadership development.

Leads discussion across the organization on complex and sensitive topics surrounding race, color, religion, gender, gender identity, gender expression, sexual orientation, marital status, medical condition, genetic information, veteran status, and other protected classes in order to foster positive attitudes and behaviors about diversity and inclusion.

Collaborates with Fire Academy personnel in maintaining and enhancing a welcoming onboarding process and employee engagement activities.

Develops and delivers education and training programs on diversity and inclusion, implicit bias, sensitivity, and cultural awareness.

Establishes metrics and conducts periodic reviews to measure success of diversity and inclusion programs and activities; reports findings to the Assistant Chief/Human Resources Director, Executive Management, Fire Chief, and Board of Directors.

Collaborates with Corporate Communications to identify creative approaches to outreach and engagement through a diversity and inclusion lens, to ensure communication efforts are reaching diverse audiences.

Identifies potentially disruptive conditions in the organization and recommends solutions to management; collaborates with Employee Relations Division to investigate allegations of discrimination and harassment based on protected class.

Collaborates with community-based organizations, local schools, colleges and universities, and other external stakeholders on local DEI initiatives; develops new and strengthens existing partnerships across the OCFA service area to improve workforce development programs.

Stays current with Equal Employment Opportunity (EEO) regulations, OCFA policies and procedures, and relevant case law, to inform DEI practices and assist with corresponding training.

Performs other related duties as assigned.

#### **MINIMUM QUALIFICATIONS:**

#### EDUCATION AND EXPERIENCE (position requirements at entry):

Bachelor's Degree in Public Administration, Sociology, Human Resources or a related field, and five years of professional level experience in the area of diversity & inclusion, cultural awareness, social justice or other related field; or, an equivalent combination of education and experience sufficient to successfully perform the essential duties of the job such as those listed above.

Previous experience in a complex public sector organization is preferred.

#### LICENSES AND CERTIFICATIONS (position requirements at entry):

Possession of a valid California Class C Driver License is required at time of appointment. This classification is subject to enrollment in the California DMV Pull Notice Program, which periodically provides Risk Management with the incumbent's Driver License record and status.

# ORANGE COUNTY FIRE AUTHORITY CLASS SPECIFICATIONS

# **JOB TITLE: Diversity and Inclusion Coordinator**

#### **KNOWLEDGE** (position requirements at entry):

Knowledge of:

- Applicable Federal, State, and Local laws, rules, regulations, and policies pertaining to Equal Employment Opportunity;
- Advanced theories and principles in the area of diversity, equity, and inclusion;
- Customer service principles;
- Research methods;
- Supervisory principles
- Conflict resolution techniques;
- Project management techniques;
- Analytical techniques for services
- Investigation techniques.

#### SKILLS (position requirements at entry):

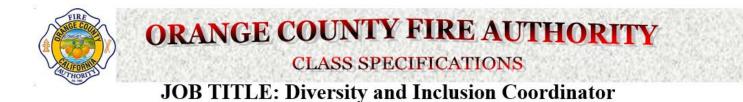

Skill in:

- Developing strategies, goals, and objectives;
- Analyzing problems and identifying problem areas, identifying alternative solutions, weighing alternatives, projecting consequences of actions, and making recommendations;
- Using a computer and applicable software applications;
- Handling multiple priorities simultaneously;
- Providing customer service;
- Leading discussions on complex topics surrounding race, gender, disability, equity and other sensitive topics
- Conducting research;
- Interpreting applicable Federal, State, and Local laws, rules, regulations, policies, and procedures;
- Representing the organization at meetings and events;
- Planning and managing complex projects and interdepartmental project teams;
- Evaluating performance management processes;
- Communication, interpersonal skills as applied to interaction with coworkers, supervisor, the general public, etc. sufficient to exchange or convey information and to receive work direction and establish and maintain effective working relationships.

#### **PHYSICAL REQUIREMENTS:**

Positions in this class typically require: fingering, grasping, talking, hearing, seeing and repetitive motions.

**Light Work:** Exerting up to 20 pounds of force occasionally, and/or up to 10 pounds of force frequently, and/or negligible amount of force constantly to move objects. If the use of arm and/or leg controls requires exertion of forces greater than that for Sedentary Work and the worker sits most of the time, the job is rated for Light Work.

#### **WORKING CONDITIONS:**

Incumbents work in a standard office environment.

#### NOTE:

The above job description is intended to represent only the key areas of responsibilities; specific position assignments will vary depending on the needs of the department.

#### **Classification History:**

Draft prepared by Human Resources Department Human Resources Director Review, Stephanie Holloman Adopted by Board of Directors: TBD Date: September 2020

## Orange County Fire Authority AGENDA STAFF REPORT

Human Resources Committee Meeting November 10, 2020 Agenda Item No. 2D Consent Calendar

# New Classification Specification for Environmental, Health and Safety Analyst

#### **Contact**(s) for Further Information

| Stephanie Holloman, Assistant Chief<br>Human Resources Department | stephanieholloman@ocfa.org | 714.573.6353 |
|---|----------------------------|--------------|
| Tamaryn Boston, Manager<br>Human Resources Department             | tamarynboston@ocfa.org     | 714.573.6018 |

#### **Summary**

This agenda item is submitted for approval to establish a new classification specification for Environmental, Health and Safety Analyst with corresponding salary range.

#### **Prior Board/Committee Action**

Not Applicable.

#### **RECOMMENDED** ACTION(S)

Review the proposed agenda item and direct staff to place the item on the agenda for the Executive Committee meeting of November 19, 2020, with the Human Resources Committee's recommendation that the Executive Committee approve the establishment of the new classification and salary range of Environmental, Health and Safety Analyst.

#### **Impact to Cities/County**

Not Applicable.

#### **Fiscal Impact**

The single Environmental, Health and Safety Specialist position allocated to the Human Resources Department will need to be reclassified to the new Environmental, Health and Safety Analyst classification. The reclassification of this position will result in a full fiscal impact of \$45,278 at top step.

#### Background

Human Resources (HR) staff retained CPS HR Consulting (CPS) to conduct a classification and compensation study of the Risk Management section of the Human Resources Department. Included in this study was the position of *Environmental, Health and Safety Specialist*.

#### **Classification Study**

After evaluating all the information submitted on the position, the CPS HR consultant determined that the incumbent's duties, as well as the qualifications necessary to perform the work, are not consistent with the existing classification specification for *Environmental, Health and Safety Specialist*. Specifically, the current classification specification is defined as a paraprofessional with administration support functions related to compliance with field related laws and

regulations. The incumbent, however, is functioning at a professional level conducting ongoing assessments of safety, hazard, environmental risks of OCFA facilities, serving as an environmental subject matter expert and primary compliance point of contact for local and state agencies; establishing and maintaining partnerships with agencies and coordinating environmental compliance efforts; facilitating and developing training; and directly impacting the way an operation functions through professional recommendations. These essential functions require at least one additional year of relevant experience, as well as International Code Council (ICC) Underground Storage Tank Designated Operator and HAZWOPER certifications. Overall, the incumbent is performing at a higher level and possesses experience and professional certifications beyond what is defined by the current *Environmental, Health and Safety Specialist* classification. As such, the CPS HR consultant recommended that the incumbent be reclassified to realign the current job duties with the appropriate level of work assigned to the incumbent's position.

Based on the emphasis of professional level duties that require the incumbent be responsible for using independent judgement while performing with a high level of independence, the CPS HR consultant recommended that the incumbent be reclassified to a newly proposed classification of *Environmental, Health and Safety Analyst.* Please see Attachment for the proposed classification specification. Staff recommend reclassifying the sole Environmental, Health and Safety Specialist to this classification.

#### Compensation Study

A market compensation study was included in the scope of this project to ensure that the compensation is competitive within the established labor market. The labor market agencies chosen for the compensation study were those agencies with either sufficient size and/or organizational structures to include Risk Management classifications (or similar classes) in the organization. Agencies that did not have a specific classification at the specialist level were not suitable for comparison, and therefore not used. Using the labor market median base salary results and considering internal equity, the base salary recommendation for the proposed *Environmental Health and Safety Analyst* is equivalent to OCFA's GE380 salary range (Top monthly salary: \$8,545.33).

Executive Committee approval is required to add a new classification with accompanying salary range to Master Position Control.

#### Attachment(s)

Proposed Environmental, Health and Safety Analyst Classification Specification

<u>REPORTS TO</u>: Risk Management Safety Officer FLSA: Non-Exempt

SUPERVISES: N/A

**CLASS CODE:** TBD

#### **DEPARTMENT**: Human Resources

#### **CLASS SUMMARY:**

Incumbent is responsible for performing a variety of professional administrative, technical and analytical office and field Environmental, Health and Safety (EHS) activities in order to ensure OCFA compliance with EHS laws and regulations and maintain EHS management systems. Incumbent is required to work independently and to exercise sound judgment in analyzing complex problems and issues.

#### **DISTINGUISHING CHARACTERISTICS:**

The Environmental, Health and Safety Analyst is the second level in a two-level Environmental, Health and Safety (EHS) series. This is the fully qualified journey-level classification in the EHS series. The Environmental, Health and Safety Analyst is distinguished from the Environmental, Health and Safety Specialist level by its professional level responsibilities, working independently, and exercising judgment and initiative. Positions at this level receive only occasional instruction or assistance where budget thresholds are exceeded and for tasks which require cross-functional support.

**ESSENTIAL FUNCTIONS:** (These duties are intended to be representative sample of the duties performed by the class.)

Oversees environmental programs including spill prevention controls and countermeasures plan, hazardous materials, hazardous waste disposal, underground and aboveground storage tanks; applies for new permits and renewals; ensures required documentation and inspections are completed.

Conducts ongoing inspections and assessments of safety, hazard, environmental risks of OCFA facilities in the following areas: underground storage tanks, aboveground storage tanks, hazardous materials storage, hazardous waste, storm water, air quality, and solid waste.

Serves as an environmental subject-matter expert and primary compliance point of contact for agencies; establishes and maintains partnerships with agencies and coordinates environmental compliance efforts.

Identifies stormwater best management practices at all fire stations; maintains sites by utilizing OCFA maintenance staff and coordinating with outside vendors.

Designs and administers environmental compliance plans.

Reports non-compliance violations and identifies/recommends best approaches for rectifying non-compliance issues.

Facilitates system certification training and develops internal training programs in support of EHS courses and curriculum.

Updates and completes required California Environmental Reporting System entries for all OCFA fire facilities; verifies status with all hazardous materials, including detailed maps, emergency plans, and inventories.

Assists in the development of policies and procedures for training, permitting strategies, and projects to achieve desired understanding of compliance requirements throughout the Authority.

Prepares and submits a variety of regulatory reports to local, state, and federal regulatory agencies.

Monitors regulatory requirements/trends and conducts impact analyses to ensure compliance with both regulatory and internal standards.

Monitors legislative changes and makes recommendations based on their potential impact to the organization.

Provides budget planning information for environmental fees and permits.

Represents the organization on specific projects and during regulatory agency audits.

Maintains hazard communication including safety data sheet records; verifies OSHA regulated chemicals, quantities, and disposition at all facilities.

Performs other duties of similar nature or level.

#### **MINIMUM QUALIFICATIONS:**

#### EDUCATION AND EXPERIENCE (position requirements at entry):

Associate's Degree in physical or biological sciences, environmental studies, environmental law, environmental health and safety management, or a related field, and three (3) years of directly related environmental, health and safety experience; or equivalent combination of education and experience sufficient to successfully perform the essential duties of the job such as those listed above.

## LICENSES AND CERTIFICATIONS (position requirements at entry):

- International Code Council (ICC) Underground Storage Tank Designated Operator Certification
- HAZWOPER Certification
- Possession of a valid California Class C Driver License is required at time of appointment. This classification is subject to enrollment in the California DMV Pull Notice Program, which periodically provides Risk Management with the incumbent's Driver License record and status.

#### **KNOWLEDGE** (position requirements at entry):

Knowledge of:

- Principles and practices of EHS inspection, regulation, and enforcement;
- Federal, state, and local regulations pertaining to environmental health issues;
- Biological agents and effects on public health;
- Environmental permitting regulations and procedures;
- Regulations, principles, and practices related to underground storage tanks, aboveground storage tanks, and solid waste handling and storage;
- Regulations and principles relating to generating, storing, transporting, and disposing of hazardous waste;
- Stormwater Best Management Practices for existing and new developments;
- Emergency response procedures to chemical spills;
- State of California Air Quality Standards;
- OSHA requirements for Safety Data Sheet maintenance;
- Proper and efficient record keeping procedures;
- Standard office procedures;
- Techniques required to gather, evaluate, and communicate information;
- Customer service principles.

#### SKILLS (position requirements at entry):

Skill in:

- Analyzing situations accurately and taking effective action by inspecting, investigating and evaluating findings to prepare recommendations;
- Analyzing, interpreting, explaining, and applying federal, state, and local laws, rules, regulations, policies and procedures;
- Developing, coordinating, and implementing solid waste and hazardous waste management plans;
- Responding to emergency spills;
- Using a computer and applicable software applications;
- Inspecting and testing sophisticated monitoring equipment during tank inspections and materials testing;
- Inspecting and testing tank monitoring equipment;
- Handling multiple priorities simultaneously;
- Collecting data;

- Preparing reports;
- Composing business correspondence;
- Making presentations;
- Maintaining records;
- Working independently with minimum supervision;
- Communication and interpersonal skills as applied to interaction with coworkers, supervisors, regulatory agency representatives, the general public, etc. sufficient to exchange or convey information and to receive work direction;
- Establishing and maintaining cooperative working relationships with others.

#### **PHYSICAL REQUIREMENTS:**

Must possess mobility to work in outside environment; to sit, stand, climb, and walk; occasionally stoop, kneel, crouch, grasp in the performance of daily duties; to operate a motor vehicle and visit various County sites; vision including color vision and depth perception. Finger dexterity is needed to operate equipment. Employees must possess the ability to lift, carry, push, and pull materials and objects averaging a weight up to 15 pounds or heavier weights with the appropriate equipment on a frequent/occasional basis, in all cases with the use of proper equipment and/or assistance from other staff.

#### **WORKING CONDITIONS:**

Employee works in both inside and outside environments. and is occasionally exposed to dry atmosphere, cold and hot temperatures, inclement weather conditions, and road hazards. May be exposed to dust and electrical energy.

#### NOTE:

The above job description is intended to represent only the key areas of responsibilities; specific position assignments will vary depending on the needs of the department.

**MDC Organizational Development Program Update** 

#### **Contact(s) for Further Information**

Brian Fennessy, Fire Chief

brianfennessy@ocfa.org

714.573.6010

#### Summary

This agenda item is submitted to provide an update on OCFA's Organizational Development Program focused on building the Mission-Driven Culture (MDC).

#### **Prior Board/Committee Action(s)**

Not Applicable.

# **RECOMMENDED** ACTION(S)

Receive and file the update.

**Impact to Cities/County** Not Applicable.

**Fiscal Impact** Not Applicable.

#### Background

In 2018 the Fire Chief initiated an organizational development initiative with the goals of building leadership strength within the department, and to evolve the culture of operations to improve adaptiveness and resilience. A driving motivation for this project was positioning the department for future challenges. In recent years fire services across the U.S. are facing more complex and severe incidents which are the result of climate change and societal changes that have resulted in greater interconnectivity and inter-reliance.

In 2018 the model of the Mission-Driven Culture (MDC) was selected as a vehicle for this evolution. MDC promotes a system of values that are common to highly effective operational teams and which has been adopted by National Wildfire Coordinating Group (NWCG) and other fire departments in the U.S. While some of the principles and expectations advocated by the initiative are present in some parts of the department, there is no system of formal reinforcement at an organizational level articulating what "right looks like".

The MDC organizational development program has included:

- Providing staff and membership informational briefings (2018)
- Updating the OCFA Way (2019)
- Gathering a baseline measurement of operational culture (2019)
- Establishing an internal team (division level) to author operational doctrine which define the operational values and philosophy for all members.

- Providing an initial offering of leader development training (2018-date)
- Using the program principles to assist with the COVID-19 strategic planning (2020)
- Collecting lessons learned from the initial COVID response and building a repository to collect lessons learned across the organization long-term. (2020)

The organizational development program continues although it has been slowed by the high operations tempo [fire season] in 2019 and 2020, and the effects of COVID-19 in 2020.

The MDC organizational development program initially started with the support from the International Association of Fire Chiefs (IAFC), a survey conducted by the Oklahoma State University, and facilitation and project support provided by Mission-Centered Solutions Inc. (MCS), which is an organizational consulting and training firm with extensive experience with leader and doctrine development for fire agencies worldwide. Given MCS's extensive experience and recent reorganizational restructuring at the IAFC, the OCFA Board of Directors at its September 2020 meeting approved the transition of the MDC organizational development program budget and contract authority from the IAFC to MCS for a three-year term.

The training programs used in the initiative have been approved by the Department of Homeland Security/FEMA and federal grant funds may be used to supplement sustainment training costs beyond the contract term.

The intent of this item is to provide an update on the progress and activities of the MDC Organizational Development Program.
